Dear Community,

We wish you an exciting New Year and look forward to continuing to shape Open Banking with you in 2021. Expect to hear from us this year with tailored Open Banking news, amazing virtual events and hackathons, along with some good old API strategy work.

If Open Banking is on the top of your to-do list for 2021, we can help you make it a reality - please don't hesitate to reach out.

**For a start**, we'll start the year off by sharing our most recent news:

**Case Study - TTK Bank streamlines**

# Berlin Group compliance using Open Bank Project

Technology demands weigh more on small and mid-sized banks, posing an obstacle for TTK Bank's innovation journey. Read the case study to find out how TTK enabled their core with NextGenPSD2 APIs and streamlined compliance with Berlin Group using Open Bank Project.

## Press Release - TESOBÉ / Open Bank Project partners with Sweeft Digital to accelerate Open Banking adoption in Georgia

**sweeftdigital**

We're thrilled to announce our new partnership with [Sweeft Digital](#) to bring agile, proven, secure and sustainable open banking solutions to Georgia.

With the first phase of the new Georgian Open Banking framework entering into force on March 31 2021, Georgian banks will find themselves faced with a new digital transformation challenge. Through this partnership, we'll successfully assist banks in Georgia with their open banking journeys.

## Welcome to the OBP ecosystem, NamiQ!

A warm welcome to the newest member of the OBP ecosystem. The [NamiQ](#) app, built on top of OBP APIs, is redefining the way banks engage with customers by combining the analytical power and efficiency of AI with the power of human insight.

Their vision? A personalised, predictive and effortless customer experience.

---

## Keep your eyes peeled for this initiative in 2021:

[The Open Future World Directory](#) is a new, fast-growing and free-to-use resource for all Open Finance and Open Banking ecosystem players across the world, helping both regulated and unregulated organisations to easily find each other, learn who's who and work together. Listings take just moments to complete.

Launched at the end of 2020, developments in progress include free B2B matchmaking allowing members to post and answer requests for expertise, download links for white papers/case studies and developer resources.

Visit the directory today: <https://directory.openfuture.world/>
